

Exercise 7-1 Enhance the Town Hall Home page
Add HTML for the main navigation menu (2-5)

The screenshot shows a code editor with a file explorer on the left and a code editor on the right. The file explorer shows a project structure with files like index.html, main.css, town_hall_1, images, js, media, speakers, chua.html, sorkin.html, toobin.html, styles, main.css, normalize.css, slicknav.css, templates, text, and index.html. The code editor shows HTML code for a navigation menu. The code is as follows:

```
17         </em> Year</h3>
18     </header>
19     <!--

```

Add the CSS for the main navigation menu (6-9)

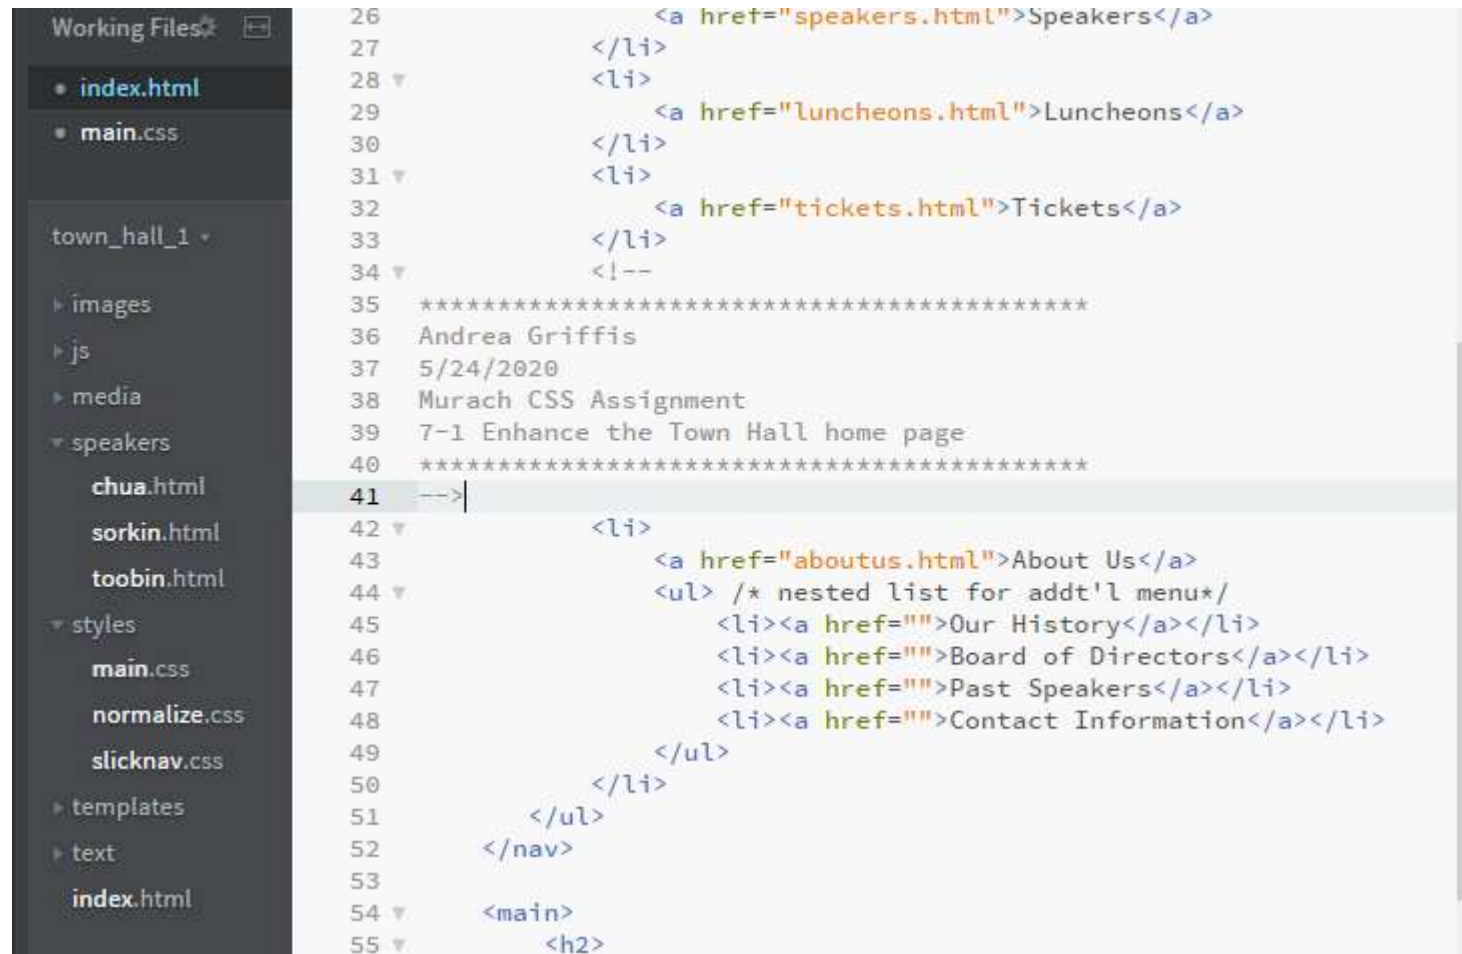

The image shows a code editor with a dark sidebar on the left and a light main area on the right. The sidebar, titled 'Working Files', contains a file tree for 'town_hall_1'. It includes folders for 'images', 'js', 'media', 'speakers', 'styles', 'templates', and 'text'. The 'styles' folder is expanded, showing 'main.css' (selected), 'normalize.css', and 'slicknav.css'. Below it are 'chua.html', 'sorkin.html', 'toobin.html', and 'index.html'. The main area displays the content of 'main.css' with line numbers 29 through 65. The CSS code defines styles for a navigation menu, including removing bullets, setting list items to float left, and styling the links with a block display, white text, and a yellow background for the current page.

Our mission

San Joaquin Valley Town Hall is a non-profit organization that is run by an all-volunteer board of directors. Our mission is to bring nationally and internationally renowned, provocative speakers who inform, educate, and entertain our audience! As one of our members told us:

"Each year I give a ticket package to each of our family members. I think of it as the gift of knowledge...and that is priceless."

Speaker of the Month

Fossil Threads in the Web of Life

February
Scott Sampson

What's 75 million years old and brand spanking new? A teenage Utahceratops! Come to the Saroyan, armed with your best dinosaur roar, when Scott Sampson, Research Curator at the Utah Museum of Natural History, steps to the podium. Sampson's research has focused on the ecology and evolution of late Cretaceous dinosaurs and he has conducted fieldwork in a number of countries in Africa.

What's 75 million years old and brand spanking new? A teenage *Archaeopteryx* comes to the Sanjoville, arrived with your last dinosaur skin, when Scott Simpson, Research Curator at the Utah Museum of Natural History, steps to the podium. Simpson's research has focused on the ecology and extinction of USA Cretaceous dinosaurs and has the potential to be a number of features in *Archaeopteryx*.
